

**Towage solutions based on more than 40 years of operation.**

### **Introduction of NH Towage**

NH Towage is a Danish Company performing global towages.

Our fleet consists of 1 CTV, 5 tugs and 3 barges with Danish flag and classed in DNV GL. All tugs are MLC2006-certified with DNV GL.

We have since the start in 1977 been in constant growth and today employs more than 50 employees both on- and off shore.

We comply to IMO, STCW, SOLAS, MARPOL, MLC2006 and DNV GL.

**Mission:** We provide dedicated, responsible and solution-oriented global towing with quality and safety in focus

**Vision:** We will be the preferred partner in global towing.

With 40 years of experience in the towage market, allow our dedicated and reliable professionals to provide workable solutions to your marine projects.

## **Towage**

During the years we have performed hundreds of towages from Black Sea as well as Baltic of new built hulls to shipyards in Northern Europe.

## **Barge Transports**

It is a reliable and cost effective method of transporting not only outsized items that cannot travel with conventional ships, trucks and trains but it can also be utilised for a wide variety of commodities or projects.

## **Marine Construction**

Our fleet is employed in marine construction projects. From offshore wind farms to bridges, piers and jetties to harbour extensions, assisting dredgers to cable-laying operations, our experience and the flexibility of our fleet can provide a valuable source of assistance to a diverse range of construction projects.
